UMK435 Bike Handle

Less weight and more power are two of the great features of Honda's Generation II Brushcutters.

INTRODUCTION

BUILT FOR CONTRACTORS

Ultra-compact and lightweight, the UMK435 Bike Handle Brushcutter is easy to handle and will keep you working longer with less fatigue.

Boasting the latest in Honda's ultra-compact, lightweight, 4-Stroke engines, the UMK435 delivers superb power and more torque than ever before.

It's powered by Honda's Generation II GX35 Mini 4-Stroke engine, a revolutionary technology offering more power and using less oil than competitors.

THE BEST IN THE BUSINESS

Honda leads the world with revolutionary mini 4-Stroke engines that deliver more power and use less oil.

Environmental impact is front of mind with the UMK435, with lower emissions, less noise and lower fuel consumption than its competitors. It also uses unleaded fuel, meaning you'll never have to mix messy oil and fuel again!

And with its auto-decompression, electronic ignition and anti-flood primer system, the UMK435 starts first time, every time, year after year.

TECHNOLOGY

Delivering excellent torque and performance via its Generation II, GX25 mini 4-Stroke engine, the UMK435 Bike can be used and stored across a full 360°.

It features an ergonomically designed easy-grip bike handle and comes with added protection in the form of safety goggles and a single operator harness.

And tough jobs are made easy with a 4-tooth metal blade plus a heavy-duty tap-and-go nylon line head.

WARRANTY

A 3-year Commercial Engine Warranty and 12-month Commercial Frame Warranty ensures that no matter how hard you're working your UMK435, Honda's got your back.

Of course, if you're using the UMK435 around the house, that warranty extends to a 4-Year Domestic Warranty, giving you peace of mind every time you pull it out of the shed.

And no matter where you are, with 400+ authorised Honda dealers across Australia, there'll always be a smiling face happy to help you out.

BRUSHCUTTERS

With their auto-decompression, electronic ignition and anti-flood primer system, Honda Brushcutters start first time, every time, year after year

The unique mini 4-Stroke engines deliver power, performance and reliability that no 2-Stroke can match

PERFORMANCE/USABILITY

Comfortable to use solid drive shaft with unique anti-vibration engine mount
